

Wells Branch Community Library District Green Policy

Wells Branch Community Library will be a leader in identifying, implementing and promoting environmentally responsible practices and sustainable behaviors.

- We reduce unnecessary waste, reuse when appropriate, and recycle what we can.
- We make use of the new single stream recycling offered by the MUD.
- We make information about recycling available to our patrons.
- We choose environmentally friendly products and practices in facility maintenance.
- We purchase recycled and recyclable materials when reasonably available.
- We conserve water, electricity, paper, gasoline, and other resources.
- We maintain the facility's energy star and green rating through the continued use of eco-friendly materials and processes.
- We provide green programming to encourage earth-friendly activities such as gardening, composting, waste reduction, toxin reduction, and conservation of resources.
